

ATENA HOSSEINIFAR

(437) 419-8291 • atena.hosseinifar@torontomu.ca • [LinkedIn](#) • [GitHub](#)

3rd-year Computer Science student at Toronto Metropolitan University with hands-on experience in secure system design, privacy-by-design principles, and formal security and privacy analysis. Interested in the behavioural factors that drive the gap between stated privacy values and real-world disclosure, particularly around location-sharing, and how that gap can be measured and resolved. Seeking to contribute to information security research in an academic lab environment.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript, HTML, Haskell, Rust

Framework and Tools: Flask, Git, GitHub, UNIX/Linux, Matplotlib, SQLite, Swing

Research and Office Tools: Microsoft Office (Word, Excel, PowerPoint), Google Suite, Slack, Zoom, SPSS, SmartPLS

Concepts: OOP, Role-Based Access Control, Agile/Scrum, GUI Design, Data Structures

Soft Skills: Team Leadership, Technical Writing, Collaboration, Communication, Problem Solving

Languages: English(Fluent), Persian(Fluent), Turkish(Fluent)

TECHNICAL PROJECTS

ScrumManager - Sprint Backlog System | *Python, Flask, SQLite, Matplotlib* Jan 2026-Apr 2026

- Led a 5-person team as Team Leader across 2 agile sprints to design and deliver a full Scrum workflow management application
- Architected the Flask application structure using Blueprints; implemented client-facing UI and frontend styling
- System features role-based access control (Developer/Client), sprint locking, automatic sprint proposals, and task decomposition
- Reflected on tradeoffs between usability and security in access control design, recognizing how architectural decisions shape user privacy behaviour
- Produced structured technical reports translating architectural and security awareness tradeoffs for non-technical stakeholders, supporting knowledge translation and proposal documentation across the project team

Privacy & Security Analysis - Retail Pricing System Jan 2025-Apr 2025

- Synthesized findings into a formal written report analyzing the behavioural and societal implications of system deployment
 - Designed a web-based solution incorporating RBAC, Google OAuth, and privacy-by-design principles to protect employee and pricing data
 - Conducted formal information security analysis (OWASP) and written research report examining privacy perceptions vs. user actions; used SPSS for statistical analysis of survey findings
 - Proposed consolidated reporting feature that received direct client validation from store management
-

EDUCATION

Bachelor of Science in Computer Science | **Toronto Metropolitan University** **Expected 2027**

Relevant Coursework: Social Issues, Ethics and Professionalism (inc. privacy paradox, surveillance systems, and technology ethics frameworks), Probability and Statistics I, Communication in the Computer Industry, Computer Science I (Python), Computer Organization I, Computer Science II (Java), Computer Organization II, Data Structures, Introduction to C and UNIX, Comparative Programming Languages

WORK EXPERIENCE

Content Creator | *Mediplant-Iran/Canada* Jan 2024-Jan 2025

- Translated weekly organizational goals into targeted written content for external audiences, adapting messaging based on audience response
- Produced structured analytical reports summarizing audience engagement data to inform team strategy and decision-making

Managing Director | *Saha Sazeh Farhikhtegan Pars Company Ltd. -Tehran, Iran* Apr 2023-Jan 2024

- Appointed Managing Director of a formally registered Ltd. company, with legal signatory authority over contracts, drafts, and binding company documents
 - Managed daily operations across multiple departments, developing and executing organizational strategy in a fast-paced environment
-

VOLUNTEERING

Volunteer | *Hack the North - University of Waterloo* Aug 2024

- Coordinated special events logistics for 1,000+ participants across internal and external stakeholders, managing time-sensitive operational tasks in a fast-paced environment with competing priorities
